

Texas Business Incubation & Acceleration Organizations

Name of Program	Public or Private	Industry	Summary of Program	Website
3 Day Startup	Non-profit	All	<p>Founded by a diverse group of students that saw unexpressed potential for startups in higher education, the 3 Day Startup program debuted at the University of Texas at Austin in 2008.</p> <p>The student organization incorporated as a nonprofit in 2010 and began expanding this immersive, short-format model to higher learning institutions across the globe. While early programs focused on strictly technology- and web-enabled startups, the organization has designed and delivered programs across a range of outcomes (economic development, skill-building, accelerator/competition readiness) and themes (social innovation, energy, culinary, hardware.)</p>	http://3daystartup.org/
ACC Bioscience Incubator (ABI)	Community College	Bioscience	<p>The first such facility at a Texas community college, the ACC Bioscience Incubator provides critically needed research space for life science companies to develop products such as pharmaceuticals and medical devices while providing educational programs, internships, and real-world training to ACC students.</p>	http://sites.austincc.edu/incubator/
Austin Technology Incubator	Public University	Technology	<p>ATI focuses on helping startups compete successfully in the capital markets. We don't write checks. But we have strong, long-term, trust-based relationships with investors – the local angel investors community, local and national venture capital firms, and sources of public funding. It works. Some stats:</p> <p>88% of our 2016 graduating class received funding while at ATI, Members of that class have now collectively raised over \$223 million, Since 2009 ATI companies have raised over \$850 million in the capital markets and achieved over \$700 million in exit value.</p>	https://ati.utexas.edu/about-us/
Bunker Labs	Non-profit	Veteran-Owned Businesses	<p>Bunker Labs supports military veterans throughout the journey of starting a business: from the idea stage—where active-duty service members are thinking about what to do post-service—to the growth stage of successful companies looking to hire, raise capital, and expand into new markets.</p>	https://bunkerlabs.org/
Capital Factory	Private	All	<p>A coworking space that serves entrepreneurs and startups in all stages, offers mentoring opportunities, introductions to investors, organized meetups and networking opportunities.</p>	https://www.capitalfactory.com/

Name of Program	Public or Private	Industry	Summary of Program	Website
Dreamit Ventures	Private	Healthcare, Real Estate, Construction, and Security Technology	Dreamit offers programs that provide startups with direct access to customers, investors, executives, and thought leaders in three verticals: Healthtech, Urbantech, and Securetech	http://www.dreamit.com/
EDCO Ventures	Non-profit	All	EDCO Ventures is a venture development organization that partners with universities, government laboratories, risk capital groups, and private individuals to discover and commercialize technologies and innovative business ideas. EDCO's goals are to create innovative companies and thereby increase living wage jobs in economically distressed areas of Texas	http://edcoventures.org/
EdTech Action Incubator	Private	Education Technology	An education technology focused Austin incubator which provides consulting, product development strategy, and customer acquisition assistance.	http://edtechaction.com/
Economic Growth Business Incubator (EGBI)	Private	Any	EGBI provides training, coaching, and support to aspiring and existing business owners who face barriers to growing a successful business. Their services include helping business prepare for opening, launching and growing, one-on-one coaching, and bookkeeping.	http://egbi.org/
Emergent Technologies	Private	Technology	To date, Emergent and its industry partners have invested in excess of \$500 million in technologies within its 19 portfolio companies. They draw upon these resources to leverage funds, launch companies, and work with our partners. They are the catalyst that transforms novel technologies into market driven products.	http://emergenttechnologies.com/
Verb	Private	Professional Development	Verb is the talent development platform that combines online learning with real-world practice. They offer skill development, mentorship, continuous feedback loops, and social impact projects.	https://verb.net/
International Accelerator	Private	All (Foreign-Born Startups)	IA is dedicated to helping foreign born entrepreneurs set up their U.S. company, give it an "American look and feel," and lay a sturdy foundation to build a global business. Their experienced team leverages years of international business, design, and entrepreneurial expertise, as well as access to industry experts, active investors and potential customers.	https://internationalaccelerator.com/about/

Name of Program	Public or Private	Industry	Summary of Program	Website
Mission Capital	Private	Social Change	Mission Capital provides the tools and guidance needed to tackle complex social issues and create lasting social change. MC combines human, financial, intellectual, social and political capital to fuel the work of mission-driven people and organizations	https://missioncapital.org/
SKU	Private	Consumer Products	SKU educates and equips companies with market-validated products for growth into world-class brands. SKU surrounds stellar startups with tailored mentor teams of rockstar entrepreneurs, investors, and industry experts. The 14 week intensive program provides exclusive insider access to industry leaders, key retailers, and the tools necessary to accelerate smarter, faster growth.	http://sku.is/
Tarmac TX	Private	Technology Social Change	Tarmac TX equips social entrepreneurs with the necessary skill set and connections and helps them access funding to reach their intended impact. Going through Tarmac TX, social entrepreneurs refine their product, test their solution in the marketplace, cultivate relationships with the right partners, mentors, and investors to grow their venture and thus maximize their social and/or environmental impact	http://www.tarmactx.com/
Tech Ranch	Private	All	Tech Ranch equips entrepreneurs and ecosystems with insights, proven techniques, tools and processes that develop both the community and the entrepreneur. Tech Ranch has been recognized as a 2015 Top 3 Social Impact Incubator by UBI Global and 2015 & 2016 Top 20 US/Canada Accelerators by Gust's Global Report.	https://techranchaustin.com/
Texas Venture Labs	Public University	All	The TVL Accelerator matches Austin-area startups with cross-functional teams of UT Austin graduate students for 10-week long startup consulting projects. Our rigorous market validation process and our students' research accelerates startups towards funding. At the end of the semester, each Accelerator company is offered an opportunity to present to Austin's investor community at our capstone Venture Expo event.	https://www.mcombs.utexas.edu/Centers/Texas-Venture-Labs/Startups

UnLtd USA	Private	Social Change	<p>In 2014, UnLtd USA took root with the mission to find and back the most promising entrepreneurs tackling pressing social and environmental problems, equipping them with the skills, networks and capital they need to transform the world in which we live. What was begun by a small team eventually grew to include 100s, coming together as part of a network of mentors and investors, all with the common purpose of leveraging entrepreneurship as a tool to solve some of our generation's greatest challenges.</p>	http://www.unltdusa.org/
